EDUCATION

CALIFORNIA STATE UNIVERSITY EAST BAY

M.S. in Computer Science
August 2019 - May 2021
Hayward, California

CVR COLLEGE OF ENGINEERING

*B.TECH. in Electrical
Engineering*
August 2015 - June 2019
Telangana, India
GPA: 8.34/10 (or) 3.5/4

SKILLS

LANGUAGES

- Python • Kotlin • Java
- JavaScript • C • XML
- SQL • MySQL • MATLAB

TECHNOLOGIES

- Android Studio • REST • NPM
- JSON • Git • Firebase • Node.js
- Express • ReactJS • Jupyter

CONCEPTS

- Object-oriented Programming
- Networking • Web security
- Android App Development
- Android App Lifecycle

EXTRACURRICULARS

State Level Basketball Champs

Runners up (December 2016)
Winners (December 2017)
Runners up (December 2018)

Head Coordinator of Street Cause Hyderabad

- Conducted events, educated and served food for 30+ orphanages on important national days.

SHETHABHISH NAIDU

COMPUTER SCIENCE

EXPERIENCE

ONTRO

(Jan - Apr, 2019, *Telangana, India*)

Software Development and Operations Executive

- Designed a basketball module for the company website and android app. Implemented the design on ReactJS and Android studio with Java. The main aim of the module was to inculcate basketball rules so that the game can be automated.
- Created an Algorithm where the website takes the number of participants and pools them into different categories so that every participant gets a fair chance to compete and win.
- Conducted more than 45+ events and ensured that the algorithm is working efficiently and gave the company a 34% of increased users from my side.

ADMYBRAND

(Apr - July, 2019, *Telangana, India*)

Head Data Intern

- Collected data from 1000+ clients and helped them and also updated 10,000+ lines of data into the company's portals.
- Training the new interns on how to collect data and how to upload them.

LEARNING COMMONS (Oct – Present, 2020, *Hayward, California*)

Student Assistant

- Assisting students with technical support, Internet issues, Driver installations, Blackboard support.
- Managing hardware services and database services for 200+ loaner laptops.
- Maintenance of library systems for software updates, data backup, ghosting operations.

PROJECTS

Tours Website

(Aug – Dec, 2019)

- Developed a Full Stack Web Application to manage your tours around the world. Designed the front end with ReactJS, ES6, ES2017, Flexbox and SVG, and the backend with Node.js/Express, Mocha, Chai JSON, and REST API. Implemented a bit of web security with TLS and secure hashes.

Coder Swag

(June – Jul, 2019)

- Developed an Android online shopping app where you can buy Coder Swag merchandise. Programmed the app using Kotlin, Java, XML and used SQLite and Firebase as Database.

Swoosh

(May – June, 2019)

- Designed an Android app in which you can locate nearby basketball courts and show your presence on the court. Used Google Maps API for the location services and designed it with Kotlin, Java, XML and firebase.

DevProfile

(Apr – May, 2019)

- Created an Android App with Android Studio, Kotlin, JAVA, XML, and firebase where developers from different areas of the world can showcase their profile and share code to other developers.
